

THE MARK

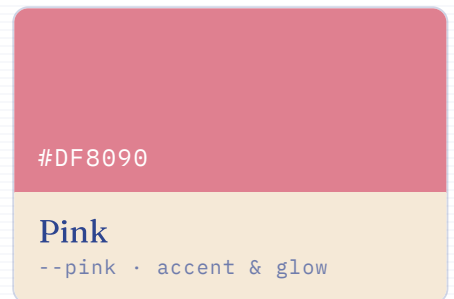

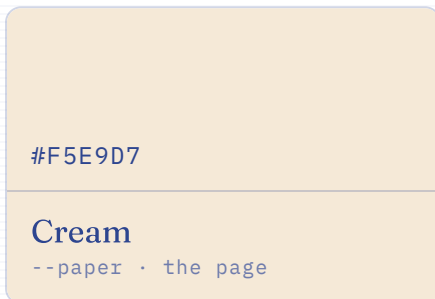

hospital radio.

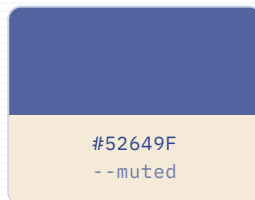

dead air never sounded so good

Always with the **full stop**. Set **lowercase** in Fraunces 600.
hospital = navy · **radio.** = pink/rose accent.
On dark surfaces "radio." uses the brighter pink.

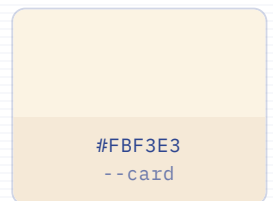

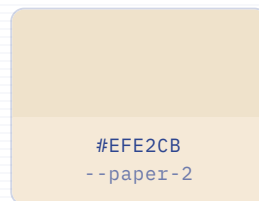

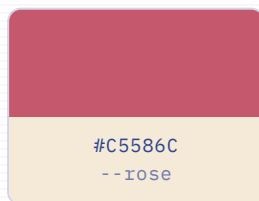

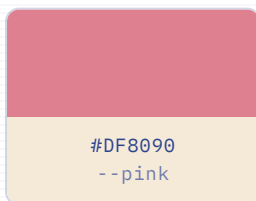

COLOUR — THE CORE THREE

NAVY TEXT TINTS

ACCENT — PINK (DECORATIVE) → ROSE (LEGIBLE)

Pink vs. rose: --pink for big marks, glows & dark backgrounds; --rose for anything small that must stay legible (links, labels, borders). Navy-on-cream is the workhorse pair — accent is a signal, never the body.

*our first ever gig — don't miss a
transmission*

— VOICE

Write like a late-night broadcast that's a bit in love and a bit falling apart.
Lowercase, warm, never corporate. **transmission · on air · tune in · dead air ·
the booth · the dial · 87.7 FM.**
